

USB 3-2-1 Raven™ 3204C

4-Port USB 3 (5Gbps), 100m CAT 6a/7 USB-C Extender System

Icron's next generation USB 3-2-1 extender, the Raven 3204C extends USB 3 (5Gbps), USB 2.0 and USB 1.1 devices up to 100m (330 ft) from a host computer across a point-to-point CAT 6a/7 connection. The Raven 3204C delivers the same exceptional performance as the Raven 3104, in a smaller, lighter design, with USB-C ports available for the host and extended devices.

Extend USB cameras, sound bars, touchscreens, hubs, DACs and other USB-C or USB-A peripherals past the maximum length of a standard USB 3 cable (1.8m/6ft) to a PC or laptop across the conference room or to an IT closet with standard CAT 6a/7 cabling. Use the LAN pass-through port to deliver IP control to any connected USB devices.

Features

- ▶ Supports all USB 3, 2, and 1.1 devices simultaneously up to 5Gbps (shared)
 - If USB 3 Isochronous support is needed, Raven 3204C Pro is recommended

- ▶ The REX (Remote Extender) includes 2 USB-C ports and 2 USB-A ports
 - Delivers 3A at each USB-C port and 1.2A at each USB-A port
- ▶ 1Gb Ethernet pass-through eliminates extra cable runs for simplified installations
- ▶ Compatible with all major UC conferencing applications

Includes the ExtremeUSB-C™ suite of features:

- ▶ True plug and play; no software drivers required
- ▶ Works with all major operating systems; Windows®, macOS™, Linux® and ChromeOS™
